Subject: Completeness Determination for Proposed "Plan Modification and Feasibility Approval Modification, Maximum Intermediate Waste Grades" for the City of Superior Moccasin Mike Landfill, License #2627, Douglas County, Wisconsin.

Dear Ms. McNamara,

We have reviewed the reports titled "Plan Modification and Feasibility Approval Modification, Maximum Intermediate Waste Grades", dated January 17, 2018, and received by the department via email on January 17, 2018; which has been replaced in its entirety by a report titled "Plan Modification and Feasibility Approval Modification, Maximum Intermediate Waste Grades", dated March 7, 2018, and received by the department via email on March 7, 2018.

Based on our review, we have determined that the feasibility modification report is complete. This is not an approval of the modification to the solid waste disposal facility you are proposing, but does confirm that the minimum information required by Chapter NR 512, Wis. Adm. Code, and s. 289.24 (3), Wis. Stats. has been provided.

You should know that additional information may be required if a more detailed review or public comments received indicate that a modification to the determination of site feasibility cannot be made without additional information.

The Department will issue a public notice in the Superior Telegram and on the Department's internet site at <http://dnr.wi.gov/topic/Waste/Comment.html> to invite public comments for a period of 30-days on the content and completeness of the feasibility modification report. The public comment period will begin when the public notice is posted on the internet site. The Department will also post this letter and the enclosed project summary as well as the text of the feasibility report, on its internet site during the public comment period.

A solid waste feasibility determination is an integrated analysis action under s. NR 150.20(2)(a)7, Wis. Adm. Code; therefore, a separate environmental impact statement has not been completed.

Please note that upon receipt of this determination, ss. 289.24(4) and 289.32, Wis. Stats., require that the applicant immediately distribute copies of the "Plan Modification and Feasibility Approval Modification, Maximum Intermediate Waste Grades" report, addenda and any additional information submitted as part of the feasibility modification to the clerk of each affected municipality and to the main public library in each affected municipality (Superior Public Library – Superior WI). If all the required documents have already been distributed, this does not need to be done again.

If you have any questions concerning this determination please contact John Morris at (715) 635-4046.

NOTICE OF APPEAL RIGHTS

If you believe you have a right to challenge this decision made by the Department, you should know that Wisconsin statutes and administrative codes establish time periods and requirements for reviewing Department decisions.

To seek judicial review of the Department's decision, sections 227.52 and 227.53, Stats., establish criteria for filing a petition for judicial review. You have 30 days after the decision is mailed or otherwise served by the Department to file your petition with the appropriate circuit court and serve the petition on the Department. The petition shall name the Department of Natural Resources as the respondent.

Sincerely,

Jill Schoen, CHMM
Waste and Materials Management Program Supervisor
